INDEX TO VOLUME 22 (Original Articles)

Index of Issues: January–February, pp. 1–72; March, pp. 73–142; April, pp. 143–210; May–June, pp. 211–284; July–August, pp. 285–364; September, pp. 365–444; October, pp. 445–512; November–December, pp. 513–590.

A

- Abdominal aortic aneurysm, see under Aneurysm(s)
- Abscess(es)
 - central, as precursor of anorectal abscess and fistula, 336
 - surgical management, 566
- Abstracts, 68, 139, 206, 279, 361, 440, 509, 578
 - CEA and cancer of large bowel (editorial), 361
 - Crohn's disease diagnosis (editorial), 68
 - proctocolectomy, revised, for colitis (editorial), 571
- Actinomycosis, colonic, mimicking carcinoma, 45
- Adenocarcinoma(s)
 - see also Carcinoma(s)
 - change in hyperplastic colonic polyps, 152
 - colon, in ureterosigmoidostomy patients, 157
 - colon and rectum, surgical treatment review, 35
- Adenoma(s)
 - pituitary (chromophobe) and thyroid (follicular), with familial polyposis, 486
 - villous
 - juvenile colonic polyp, 63
 - rectal, management, 406
- American Society of Colon and Rectal Surgeons
 - 78th Annual Convention, preliminary scientific program, 281
 - 79th Annual Meeting, program highlights, 581
- Analgesia, lidocaine, viscous, in hemorrhoidectomy, 40
- Anastomosis(es)
 - colonic, telescoping, experimental (dogs) comparison, 111
 - end-to-end, transanal procedure, 102
 - glucagon (intravenous), use in end-to-end stapling, 452
 - ileorectal, for inflammatory intestinal disease, 399
 - omental pedicle graft, in colonic, 448
 - stapled
 - glucagon (intravenous) as adjunct, 452
 - kyphoscoliotic patient, 417
 - telescoping, experimental (dogs) compared to one-layer, two-layer, and stapled, 111
 - transanal procedure, 102
- Aneurysm(s), aortic, abdominal, ruptured, 185
- Announcements, 4, 81, 86, 101, 110, 138, 199, 204, 244, 311, 345, 436, 471, 556
- Anorectum
 - abscess, surgical management, 566
 - cloacogenic carcinoma in homosexual men, 557
 - condyloma acuminatum, giant, 497
 - constipation, postoperative, management, 149, 233
 - injuries, civilian, 17
 - outpatient surgery, 480
- Anomaly(ies), vascular ectasia manifesting as ulcerative lesion, 189
- Antigen(s), carcinoembryonic
 - diagnosis of meningeal metastases from colorectal carcinoma, 216
 - serial determinations in management of colorectal cancer, 211
- Anus
 - condyloma acuminatum, giant, 561
 - evisceration of small intestine through, 569
 - fissure, manual dilatation vs. lateral subcutaneous sphincterotomy in management, 308

- pressure, Lord's procedure, 483
- sphincter
 - abscess, central, precursor of anorectal abscess and fistula, 336
 - anatomy, mechanism, 336
 - levator hiatus and tunnel, 539
 - preservation by anastomosis with colon, 102
 - pressure studies, 342, 415
- Aortic aneurysm, see under Aneurysm(s)
- Appendicitis, rectal examination, diagnostic significance, 97
- Appendix
 - intussusception with incarceration of cystadenoma, 133
 - leiomyosarcoma of, 175
 - malformation simulating endometriosis, 262
 - mucocoele, diagnosis and management, 267, 472

B

- Biofeedback, electromyography for anal incontinence, 169
- Bladder cancer, followed by colon cancer, 157
- Bleeding
 - see also Hemorrhage
 - rectal
 - arterio-enteric fistula as cause, 187
 - colonic varices, 321
- Book reviews, 205
- Bowel, see Intestine(s)
- Buschke-Loewenstein tumor, see Condyloma acuminatum

C

- Cancer(s)
 - see also Carcinoma(s); Metastasis(es); Neoplasia; Tumor(s); specific types
 - colon, histologic features, host defense, 93
 - colorectal
 - pelvic irradiation followed by, 123
 - premenopausal patients, 401
 - familial, colonic and endometrial, management programs, 106
 - gynecologic, radiotherapy as precursor of intestinal and anorectal complications, 459
 - hepatic, see Liver
 - hereditary colonic and endometrial, management programs, 106
 - metastatic, see Metastasis(es)
 - radiotherapy, preoperative plus postoperative, 1
 - rectum
 - pull-through operation, review, 120
 - radiotherapy, preoperative vs. postoperative, 455
- Carcinoma(s)
 - cecal lipoma, simulating, differential diagnosis, 270
 - cloacogenic, anorectal, in homosexual men, 557
 - colon
 - colitis, ischemic, associated with, 328
 - ureterocolostomy as cause, 434
 - colorectal
 - CEA assay in management, 211
 - 5-fluorouracil and *Corynebacterium parvum* therapy trial, 223
 - lymphocyte count, as indicator of immune response, prognosis predictor, 221

- osseous metastases from, 129
 - pelvic irradiation as cause, 123
 - pulmonary metastases from, 553
 - review of 10-year experience, 477
 - surgical treatment review, 35
 - metastatic
 - see also Metastasis(es)
 - cerebral, from rectal, 255
 - osseous, from colorectal, 129
 - pancreatic, intestinal, large, obstruction as sign, 425
 - squamous-cell, of proximal colon, 241, 552
 - Carcinoembryonic antigen, see Antigen(s), carcinoembryonic
 - CEA, see Antigen(s), carcinoembryonic
 - Cecum, lipoma, simulating carcinoma, 270
 - Chemoimmunotherapy
 - see also Chemotherapy
 - Corynebacterium parvum*
 - colorectal cancer therapy trial with 5-fluorouracil, 223
 - Chemotherapy
 - see also Chemoimmunotherapy
 - 5-fluorouracil
 - colorectal cancer therapy trial with *Corynebacterium parvum*, 223
 - hepatic cancer therapy by infusion, with radiotherapy (symposium), 376
 - Children, see Pediatrics
 - Colitis
 - amebic, endemic, 573
 - Crohn's disease and diverticulitis, 524
 - ischemic
 - carcinoma, colonic, associated with, 328
 - polyarteritis nodosa as cause, 428
 - ritual-enema induced, 195
 - ulcerative
 - epidemiologic study, Istanbul, 350
 - intestinal gas in, 346
 - Colon
 - actinomycosis mimicking carcinoma, 45
 - adenocarcinoma
 - surgical treatment, review, 35
 - ureterosigmoidostomy patients, 157
 - anastomosis, see under Anastomosis(es)
 - cancer, histologic features, host defense, 93
 - carcinoma(s)
 - ischemic colitis associated with, 328
 - osseous metastases from, 129
 - ureterocolostomy as cause, 434
 - colostomy closure complications, 466
 - complications following hepatic transplant, 218
 - Crohn's disease and diverticulitis, 524
 - disruption associated with pyonephrosis, 172
 - foreign body
 - intra-abdominal, manifesting as tumor, 324
 - perforation, causing fistula, 559
 - hepatic flexure, squamous-cell carcinoma, 241, 552
 - obstruction
 - herpes zoster as cause, 503
 - sigmoidal ulcer as cause, 42
 - perforation, foreign-body, causing fistula, 559
 - pneumatosis cystoides intestinalis, 245
 - polyps
 - see also Polyp(s)
 - juvenile, with villous adenoma and retroperitoneal fibrosis, 63
 - hyperplastic, adenomatous changes, 152
 - malignant, management review, 82
 - rupture, spontaneous, 569
 - schistosomiasis, surgical management, 390
 - sigmoid
 - fistula, colovesical, secondary to foreign-body perforation, 559
 - polyp, inflammatory fibroid, 575
 - transverse, volvulus, 492
 - ulcer, nonspecific, 256
 - varices, cause of hemorrhage, 321
 - volvulus
 - transverse, 492
 - traveling, 276
 - Colonoscopy
 - biopsy in diagnosis of amebic colitis, 573
 - ileal perforation, electrical, 501
 - fiberoptic, flexible, in management of colorectal neoplasia, 302
 - intraoperative, 234
 - left-sided, outpatient examination, 396
 - pediatric, 530
 - Colorectum
 - carcinoma, pulmonary metastases from, 553
 - polyps, malignant, management, 82
 - Colostomy(ies)
 - see also Ostomy(ies)
 - complications
 - closure, 312, 466
 - stoma site, 387
 - left, management, irrigation vs. natural evacuation, 31
 - Colo-urinary fistula, see under Fistula(s)
 - Complication(s)
 - anorectal, from treatment of gynecologic cancer, 459
 - colon, following hepatic transplant, 218
 - Complication(s)
 - colonoscopy, ileal perforation, electrical, 501
 - colostomy
 - closure, 312, 466
 - stoma site, 387
 - diverticulum, duodenal with fistula, duodenocolic, 318
 - endometrioma, perineal, after episiotomy, 550
 - ileostomy, volvulus of Kock reservoir, 55
 - intestinal, gynecologic cancer treatment as cause, 459
 - Ripstein operation, 333
 - sling (Teflon®) repair for prolapse, 445
 - Condyloma acuminatum, giant
 - anorectum, 497
 - anus, 561
 - Constipation, fecal softening agent in management, 149, 233
 - Continence
 - see also Incontinence
 - sphincter function, levator hiatus and tunnel, 539
 - Corynebacterium parvum*, see under Chemoimmunotherapy
 - Crohn's disease
 - late onset, colonic diverticulitis followed by, 524
 - rectovaginal fistula, management, 58
 - Cryosurgery
 - hemorrhoidectomy, vs. operative, 10
 - pilonidal disease management, 306
 - Cystadenoma, appendix, incarcerated in intussusception, 133
- D**
- Defecation, physiology, 336, 408, 539
 - Delorme operation, modified, for prolapse, 513
 - Diverticulitis, colonic, Crohn's disease, late onset, 524
- E**
- Ectasia, vascular, rectum, manifesting as ulcerative lesion, 189
 - Editorials, 68, 361, 571

- Electromyography, biofeedback management of anal incontinence, 169
 Enema(s), ritual, inducing colitis, 195
 Endometrioma, perineal, in episiotomy incisions, 550
 Endometriosis, appendix malformation simulating, 262
 Errata, 233, 552
 Evisceration, small intestine through anus, after colon rupture, 569

F

- Familial cancer, see under Cancer(s)
 Familial polyposis, see under Polyposis
 Feces
 senna extract *vs.* castor oil in preparation for colonic radiography, 356
 softening agent
 constipation, postoperative, management, 149, 233
 radiographic examination preparation, 356
 Fiberoptic, flexible
 colonoscopy in management of colorectal neoplasia, 302
 sigmoidoscope examination, 162
 Fissure(s), anal, manual dilatation *vs.* lateral subcutaneous sphincterotomy in management, 308
 Fistula(s)
 anal
 central abscess as precursor, 336
 classification, 408
 anorectal, surgical treatment (symposium), 293
 arterio-enteric, 187
 colo-urinary in cancer patients, 143
 colovesical
 diagnosis and management, 27
 foreign-body perforation as cause, 559
 duodenocolic, complication of duodenal diverticulum, 318
 rectovaginal, in Crohn's disease, 58
 reno-colic, management, 172
 5-Fluorouracil, see under Chemotherapy
 Foreign body
 colon-perforating, causing fistula, 559
 intra-abdominal, manifesting as colonic tumor, 324
 Fournier's syndrome, see under Gangrene
 5-FU, see Chemotherapy, 5-fluorouracil

G

- Gangrene, Fournier's, after anorectal mucosal biopsy, 51
 Gastroenteritis, eosinophilic, in ileocecal area, 47
 Graft(s), omental pedicle, in colonic anastomosis, 448
 Gynecology
 see also Irradiation, pelvic
 see also Obstetrics
 oophorectomy, prophylactic in premenopausal colorectal cancer patients, 401

H

- Healing, perineal management, after rectal excision for neoplastic disease, 228
 Hemorrhage, gastrointestinal, colonic varices as cause, 321
 Hemorrhoidal disease, outpatient management, 315
 Hemorrhoidectomy(ies)
 lidocaine, viscous, postoperative analgesia, 40
 open *vs.* closed techniques, questionnaire survey, 536
 operative *vs.* cryodestruction, 10
 thrombosis, acute, operative treatment, 159
 Whitehead operation, 238, 330

- Hepatic, see Liver
 Herpes zoster, causing low colon obstruction, 501
 Histiocytoma, rectal, malignant, 179

I

- Ileostomy(ies)
 complication(s), volvulus of Kock reservoir, 55
 continent, new technique (experimental), 87
 Incontinence
 see also Continence
 anal, management by biofeedback, 169
 fecal, management by gracilis muscle transposition (symposium), 290
 Infants, see Pediatrics
 Injury(ies), anorectal, civilian, 17
 Intestine(s)
 inflammatory disease, colectomy plus anastomosis reviewed, 399
 Intestine(s)
 large
 gas in colitis, 346
 malakoplakia, microscopic features, 73
 obstruction as sign of pancreatic carcinoma, 425
 obstruction due to sigmoidal ulcer, 42
 pneumatosis cystoides intestinalis, 245
 polyp, inflammatory fibroid, 575
 pneumatosis intestinalis, 5
 small
 evisceration through anus, 569
 gas in colitis, 346
 gastroenteritis, eosinophilic, in ileocecal area, 47
 intussusception prevention in Peutz-Jeghers syndrome, 274
 obstruction after operation for inflammatory disease of bowel, 469
 tumors, primary malignant, 24
 Intussusception
 appendix, incarceration of cystadenoma, 133
 prevention in Peutz-Jeghers syndrome, 274
 Irradiation, pelvic, colorectal cancer subsequent to, 123

K

- Kyphoscoliosis, rectal surgery in, 415

L

- Lahey Clinic, colorectal carcinoma, review of 10-year experience, 477
 Laparotomy, see under Surgery
 Lateral subcutaneous sphincterotomy, anal fissure management, 308
 Leiomyosarcoma(s), appendiceal, 175
 Letter to the Editor
 colovesical fistula treatment, 360
 intraoperative colonoscopy, 507
 author's reply, 508
 villous adenoma, 505
 Ligation, hepatic artery, for metastasis from colorectal cancer (symposium), 370
 Lipoma, cecal, simulating carcinoma, 270
 Liver
 ligation, hepatic artery, for metastasis from colorectal cancer (symposium), 370
 radiotherapy, internal, for cancer, 25-patient experience (symposium), 371

- radiotherapy plus 5-fluorouracil infusion for cancer (symposium), 376
- resection, for metastasis from colorectal cancer, review of 20 cases (symposium), 366
- transplant, colonic complications after, 218
- Lord's procedure, anal pressure, 483
- Lymphocyte count, as indicator of host immune response, prognosis predictor, in colorectal cancer, 221

M

- Malakoplakia of large intestine, microscopic features, 73
- Manual dilatation of anus
 - anal fissure management, 308
 - Lord's procedure, 483
- Megacolon
 - idiopathic, pseudo-obstruction in, 437
 - toxic, see under Colitis, ulcerative
- Memoirs, 161, 171, 178, 182, 194, 398, 414, 419, 424, 454, 476, 500, 502
- Metastasis(es)
 - cerebral, from rectal carcinoma, 252
 - hepatic
 - colorectal cancer, ligation of hepatic artery (symposium), 370
 - colorectal cancer, radiotherapy plus 5-fluorouracil infusion (symposium), 376
 - resection, from colorectal cancer, review of 20 cases (symposium), 366
 - symposium, 365
 - meningeal, from rectal carcinoma, CEA in diagnosis, 216
 - osseous, from colorectal carcinoma, 129
 - ovarian, from colorectal cancer, prophylactic oophorectomy for, 401
 - pituitary, from colorectal adenomatosis, 486
 - pulmonary, from colorectal cancer, 553
- Mucocele(s)
 - see also Cystadenoma, appendix
 - appendiceal, diagnosis and management, 267, 472

N

- Neoplasia, colorectal, fiberoptic, flexible, colonoscope in management, 302
- Nocardiosis, peritoneal, 183

O

- Obstetrics
 - see also Gynecology
 - endometrioma, perineal, after episiotomy, 550
- Obstruction(s)
 - colonic, due to sigmoidal ulcer, 42
 - intestine, large
 - herpes zoster as cause, 503
 - sign of pancreatic carcinoma, 425
 - intestine, small, after operation for inflammatory disease of bowel, 469
 - volvulus, recurrent, 420
- Oophorectomy, prophylactic in premenopausal colorectal cancer patients, 401
- Ostomy(ies)
 - colostomy
 - closure complications, 466
 - left, management, irrigation *vs.* natural evacuation, 31
 - ureterocolostomy, colon cancer precursor, 434

- Outpatient(s)
 - anorectal surgery, 480
- colonoscopy
 - fiberoptic, flexible, in colorectal neoplasia management, 302
 - leftsided, examination, 396
 - hemorrhoidal disease, acute, management, 315
 - sigmoidoscopy, flexible fiberoptic *vs.* rigid, 162
- Oxygen, high, pneumatosis cystoides intestinalis treatment, 245

P

- Pain, postoperative, see Analgesia
- Pediatrics, colonoscopy in infants and children, 530
- Perforation(s), ileal, complication of colonoscopy, 501
- Perineum, wounds after rectal excision, management trial, 228
- Peritoneum, nocardiosis, 183
- Peutz-Jeghers syndrome, intussusception prevention in, 274
- Pilonidal disease, cryosurgery in management, 306
- Pneumatosis cystoides intestinalis, treatment with high inspired oxygen, 245
- Pneumatosis intestinalis, 5
- Polyarteritis nodosa, as cause of ischemic colitis, 428
- Polyp(s)
 - colorectal, malignant, management, 82
 - fibroid, inflammatory, sigmoid colon, 575
 - hyperplastic colonic, with adenomatous changes, 152
- Polypsis
 - familial, colorectal, with pituitary metastasis, 486
 - juvenile colonic, with villous adenoma and retroperitoneal fibrosis, 63
- Pressure, anal
 - Lord's procedure, treatment, 483
- sphincter
 - prolapse, 342
 - studies, 342, 415
- Procidentia, see Prolapse
- Prolapse
 - Delorme operation, modified, for repair, 513
 - Ripstein operation
 - complications, 333
 - experience in 30 patients, 522
 - Roscoe Graham operation, modified, 117
 - sling (Teflon®) repair complications, 445
 - sphincter pressures in, 342
- Pseudo-obstruction, colonic, in idiopathic megacolon, 437

R

- Radiotherapy
 - gynecologic cancer treatment, as precursor of intestinal and anorectal complications, 459
 - hepatic cancer treatment with 5-fluorouracil infusion (symposium), 376
 - intrahepatic treatment of cancer, 25-patient experience (symposium), 371
 - preoperative plus postoperative, 1
 - preoperative *vs.* postoperative in rectal cancer, 455
- Rectum
 - adenocarcinoma, surgical treatment review, 35
 - anastomosis, low anterior, stapled, with glucagon (intravenous) as adjunct, 452
 - cancer
 - pull-through operation, review, 120
 - radiotherapy, preoperative *vs.* postoperative, 455

- carcinoma
 cerebral metastasis from 252
 osseous metastases from, 129
 Delorme operation, modified, for prolapse repair, 513
 ectasia, vascular, manifesting as ulcerative lesion, 189
 examination, diagnostic significance in appendicitis, 97
 histiocytoma, malignant, 179
 ovarian teratoma, benign cystic, ruptured into, 248
 polyps, malignant, management review, 82
 proctotomy, posterior, for lesions (symposium), 288
 prolapse, in young men, modified Roscoe Graham operation, 117
 Ripstein procedure for prolapse, 30 patients, 522
 sling (Teflon®) repair of prolapse, complications, 445
 tuberculosis, ulcero-hypertrophic, 260
 villous tumors, management, 406
- Reno-colic fistula, see under Fistula(s)
- Resection(s), hepatic, for metastasis from colorectal cancer, review of 20 cases (symposium), 366
- Ripstein operation
 complications, 333
 prolapse repair, 30 patients, 522
 rectal anatomy following, 333
- Rupture, spontaneous, of colon, 569
